"The Coin Machines Merry-Go-Round"

THE SERVICEMEN RETURN

By Bill Gersh

Thruout the industry there is great jubilation in the thought that many returning servicemen will once again take their places in the coin machines business. Many have been holding jobs open for them on the routes, in jobbing and distributing businesses.

Others, who have missed their best and key men while Uncle Sam made use of their services, have a mixture of pride and pleasure in the thought that these men will soon return to make easier the problems of operating, jobbing or distributing, whichever it may be. Many, too, are planning to only increase their businesses when their men return from the armed forces.

To a few in the industry there is some uneasiness being felt because the serviceman is turning to the coin business. Some are of the belief that this will mean loss of locations. It is extremely difficult to convince a storekeeper that he should not take equipment from a returned soldier but should, instead, continue to do business with the man who served him all during the war period, and sometimes even prior to the war.

Those who have experienced loss of locations to soldiers know that it is difficult to fight the storekeeper who feels that he should give a returned soldier his location. And as the location owner is reported to state to such operators, "The kid needs a break, mister, and you got plenty of more locations than just mine, anyway."

One noted southwest coinman advised sometime ago that the only method he could find to combat loss of locations to returned soldiers was by employing other returned soldiers to work for him to maintain his locations. But the spots he had already lost, have remained lost to him.

However, the progressive coinman welcomes the serviceman with open arms.

For example, one noted coinman states that, in his belief, this industry would be assured greater progress if it would immediately grasp the returning serviceman to its bosom. He proposes that the trade go all out in advertising in its local newspapers, in every community, inviting returned soldiers, sailors and marines to join its ranks.

He believes that the returned serviceman is in the best position to win the hard headed bluenoses over to this industry. And this for no other reason than that he is a returned veteran who is starting his life all over again and who chose as his occupation—the coin operated machines industry.

Most coinmen are of the same belief. There are some who have openly stated that the returned serviceman will open more closed territory for this industry than will all the greatest legal minds in the nation put together.

There are others who feel that the authorities in each community will look upon this industry with greater respect and forbearance if the returned soldier is found in its ranks, using this business for his future livelihood.

For many months The Cash Box has urged the trade to make use of the returning soldier. It has suggested that he be among the very first invited to attend schools for mechanics which many manufacturers intend to create. He can be put to work the moment he completes such a course.

The Cash Box has also explained that the returned veteran is good material for the future betterment of this industry from more than one standpoint. The friendships he has made, and the further fact that this war has given him a wide knowledge of teamwork, as well as trained him for technical skills, causes him to become the most natural prospect for this industry that has ever been developed.

"The Coin Machines Merry-Go-Round"

The returned serviceman will probably be the leader of tomorrow. He has learned that by fighting hard he was able to win great victory. There is much need for this fighting spirit in this trade. There are too many who run too fast, and bow too low, too suddenly, to whatever officials say, to help make this industry anything but what it should be in the minds of all people.

There are many who need that fighting spirit which was inculcated in the American serviceman during his training for this war. When city councils meet and decide to raise the license fees for games, venders, music, and all other equipment, there are entirely too many coinmen who simply neglect to fight these increases. Usually these are the very coinmen who yell loudest because they have been raised.

There is no doubt that the returned veteran, who will invest his money in this industry, will never let this occur without a very good fight on his part. And that's just what this industry sorely needs.

As stated before, these men are therefore natural prospects for this business. The veteran is the type of man, generally, who will, by his fighting spirit, and ambition, and his youth, help to make this a great industry.

He will never allow the people in his community to walk all over him, because he is identified with an industry they little understand. He will not allow them to disregard the fact that he is working hard in a new and infant industry to earn his bread and butter—and maybe put a few dollars away for his old age. In short, he is doing no more than any other business man is doing, regardless of what trade he chooses for his livelihood.

He fought too hard, before he connected with this occupation, to let the average spouting politico chase him and his business. He isn't going to let anyone who feels he can use a few headlines of publicity in the local press push him around.

Therefore, those who may have any qualms about the value of the returning soldier entering into the ranks of this industry had best put these aside. And instead, attempt to bring some of these fine American boys into this business, for the general betterment of all this field.

It would handsomely pay some of the leaders in this trade to make every effort to connect with leading veterans' organizations in their communities and offer to give employment to returning servicemen. They will eventually learn that this will prove one of the best moves they could ever have made.

Furthermore, in regard to veterans' organizations, there is no doubt that many new and different such organizations are going to arise. The new soldier wants his own type of organization. He feels himself a different type soldier than what former wars produced.

And these new organizations are going to back him and help him all they possibly can to get ahead in this civilian world. Therefore, it will surely prove of good value to this trade to know that it employs men who have the backing of such organizations to help them to make their future in this industry successful.

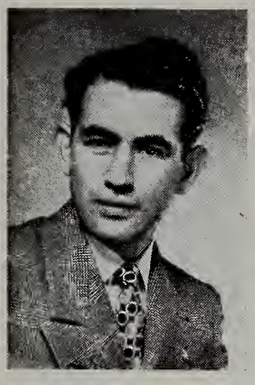
The average man in this business knows the value of the discipline a man receives from army training. This means much to any employer who is fair and decent to his employees. These boys will work their heads off for the right sort of employer. And most of the members of this industry are generous employers.

For the future growth and greatness of this industry The Cash Box believes that coinmen should grasp the returning serviceman to their bosoms. These men are bound to prove the finest addition to this field which could ever occur. They will also prove to be the best men who could ever have been interested in this business.

The fact that the average coinman today is in a financial position where he can bring these returned and returning veterans into his business is of tremendous import to this field. Coinmen should not hesitate. They should not wait too long. They should make their first order of new business to interest the returned serviceman in this field.

J. ROSENFELD CO. BALLY DISTRIB.

ST. LOUIS, MO. — Jack Rosenfeld, well known coin machine distributor, confirmed the news item carried in The Cash Box some weeks ago, and announces his appointment as exclusive distributor for Bally Manufacturing Co. for the St. Louis territory. The complete territory which will be covered by Rosenfeld comprises Eastern Missouri, Southern Illinois, and Southwestern Kentucky.



Jack Rosenfeld

The company will be known as the J. Rosenfeld Co., and have taken over a location at 3218 Olive Street, occupying a space of 22,000 square feet. 1,500 square feet will be devoted to a display room; the rest of the space being utilized for large offices, a complete service department, a parts department and a storage room. For the convenience of the operators, a free parking lot has been opened in the rear of the building.

Prior to his being discharged from the Navy the early part of the year, Jack spent over three years in service. Jack is elated over his appointment as Bally distributor and states "I have had over 15 years experience in the coin machines business, and feel I am well qualified to do a very fine job for my factory. I pledge myself and my entire organization to do the utmost in sales and service for the operators and jobbers in my territory.

Rosenfeld's offices are a bee-hive of activity with carpenters, painters, and electricians putting the finishing touches to what promises to be one of the show places of the industry. There has been a steady stream of phone calls and wires from his many friends wishing him well in his new venture.

For announcement and official showings of Bally's post-war machines a statement will be issued in the very near future.

BUSH DISTRIB. CO. HAS AIREON

MINNEAPOLIS, MINN. — Ted Bush of Bush Distributing Co., this city, announced this week that his company will distribute the phonographs and auxiliary equipment of the Aireon Manufacturing Corp. in this territory.

Bush and his manager Ken Willis are busy making many plans to cover the territory completely, and are anxiously awaiting the time when deliveries will be made.

K & M RELEASES NEW RECORD

LOS ANGELES, CALIF. — K & M Service, this city, have just pressed a new record by the Bill Mayson Trio called "Exit" and which is backed up by "Stir Bug Boogie", which music ops here believe will prove to be an outstanding hit. The new record is being produced under the "Rich" label.

The company report that they are only interested in music operator business and will not sell to record retailers. This latest platter is finding great favor among the operators here, who believe it to be one of the best yet produced by the firm. They claim operators thruout the country will also find it a money maker.

MUSKEGON OPS JOIN DETROIT ASSN.

DETROIT, MICH. — The successful operating and administration of the Michigan Automatic Phonograph Owners' Association, Inc. was proven this past week by the opening of Local Chapter No. 2 in Muskegon, Michigan, under the supervision of its President Joseph Brilliant, Vice-President, Anthony Sirocuse and Secretary-Treasurer, Victor DeSchryver.

Local Chapter No. 2 will be headed by President Joseph Rakovitz, Vice-President George Oplinger, Secretary-Treasurer Edward Douglas, and Board Members Henry Perkins and James Williams.

It is expected very shortly that more Chapters will be opened in other parts of the State, as operators in Detroit Chapter have been so well pleased with the results obtained, not only from a profit standpoint, but also from a more satisfactory business arrangement. Other operators in the state have contacted the Detroit Chapter to see if it isn't possible to make the same arrangements in their vicinity.

The officers of the Detroit Chapter inform us that they will set up new Chapters as rapidly as possible, and suggest that those who haven't contacted them as yet, do so and get all particulars.

The success of the Association, it is claimed, is due to the untiring efforts of the Board, who meet regularly to take up and discuss any problems or suggestions that may arise; and also due to the cooperation received from all of the operators under the Detroit Chapter.

GUTSHALL GIVES OPS FIRST CALL ON DISCS

LOS ANGELES, CALIF. – Jack Gutshall of the Jack Gutshall Distributing Co., this city, national distributor for Exclusive Records, reports that it is the firm's policy to give music machine operators thruout the nation first call on the Exclusive discs.

Joe Liggins and His Honeydrippers

Gutshall's "The Honeydrippers" by Joe Liggins has now been in first place in juke box polls for over 13 weeks. This record is believed to be one of the most outstanding the juke box men have ever had.

In announcing his policy, Gutshall also stated that this would be in effect with the new Joe Liggins' record "I've Got A Right To Cry" and "Blue Moods", which has just been released to the trade. Gutshall is of the belief that this new Joe Liggins' platter will prove an even greater money getter for the coin men than has "The Honeydrippers".

"In giving all music machine operators first call on all our records" Jack stated "we believe that the juke boxes will rapidly establish many great stars who have been lingering by the wayside. This is the opportunity which the juke box operators of the country have been awaiting. They can depend on us to give them first preference on every record we produce to help them overcome any of the trying times which they have endured, not being able to get the records they needed."

Gutshall also stated "We are now appointing distributors nationally and some very good territories are still open".

L. A. MUSIC OPS FACE NEW LICENSE

LOS ANGELES, CALIF. — Music coinmen here are upset over the proposal of the License Department to charge them $25.00 for each phono and $1.00 additional for each wall and bar box they operate.

At present leading music ops are grouping together in an effort to defeat this measure. Attorney has been hired and the music coinmen feel that after their meeting at the Embassy Hotel (Monday, November 5) they will have outlined a complete program.

AN OPERATOR FROM NO. DAKOTA SPEAKS

BISMARK, N. D. — Operating coin machines in different territories brings a variety of problems. V. R. Middlemas of the Van Specialty Co., this city writes us explaining some of the operating problems in his territory, and some suggestions for the future benefit of the business.

Mr. Middlemas writes: "New operators coming into the business should have it impressed on them that the money they take as their share from the machines is not mostly net profit, and they should not give too high a percentage to their locations.

Our percentage to locations are as follows: On a monthly basis, — 25% up to $30.00; 30% up to $60.00; and 1/3 over $60.00. We only check our cash boxes once a month and where the machines may fill up before that period of time, we convert it into paper money.

In the post-war period, there are many locations who think they should own their own machines, and it is our opinion that the manufacturers, especially of automatic phonographs, should impress upon the distributors to be very cautious in selling the individuals their own machines.

There are certain coin machine journals where the distributor comes out with the prices so that everybody has a chance to know what the price is. It is not fair to the operator to have the locations have the same price as a legitimate operator. We operate about 300 music machines at the present time, and the impression that our locations more or less have is that it is such a profitable proposition that they think we are having nothing to do except count the proceeds.

Undoubtedly, we will have three or more manufacturers besides the ones we now have making music boxes, so I think someone should impress upon all the manufacturers to use judgment in who their distributors sell their machines to".

GREENE ELECTED PRES. N. A. M. A.

CHICAGO, ILL. — Robert Z. Greene, president of Rowe Manufacturing Co., Inc., Belleville, N. J. was elected president of the National Automatic Merchandising Association, this week. His office will be used as the center for gatherings of coinmen, and his staff will keep a card system of all coinmen in the city.

On the card will be the information as to where the coinman is staying, and how long he intends to remain. In this way, claims Blatt, it will be possible for every coinman to meet up with his friends from all over the country, who may be vacationing there.

MICON DISTRIB FOR EVANS

LOS ANGELES, CALIF. — Leonard Micon of Pacific Coast Distributors, this city, has just been appointed exclusive distributor for H. C. Evans & Company, Chicago, for Southern California and Arizona.

This is the first post-war line for which this firm has been appointed as distributors. They will make announcements in the future on other lines which they expect to represent in California and thruout the surrounding states.

Micon reports "We fully believe that the new line of consoles and games which are being presented to the trade by Evans will prove to be one of the most profitable which the industry thruout the territory have ever enjoyed. We are also arranging for complete jobbing set-ups so that every operator can be assured of getting Evans' products faster than ever before."

DeSELM JOINS UNITED MFG. CO.

CHICAGO — Billy DeSelm, who recently joined United Manufacturing Company, Chicago manufacturers and re-builders of coin operated games, will be in complete charge of sales and promotional activities.

DeSelm, who prior to the war, was connected with Exhibit Supply Company for about 10 years, brings to United the combined experience and viewpoint of both manufacturer and operator. Billy's last four years was spent in the operating field.

Lyn Durant, head of United Manufacturing Co. stated "I am confident that the trade will go for Billy in a big way, and as for our organization, United equipment will flow smoothly from the factory to meet the requirements of distributors and operators everywhere.

DeSelm, overjoyed at his new position, informs United's reputation for delivering the best in games during the war period will be better than ever, and I am happy to say that our distributors and operators will enjoy the finest equipment during the coming years."

Du GRENIER COMMENDED FOR WAR WORK

HAVERHILL, MASS. — Francis C. DuGrenier, consulting engineer for Arthur H. DuGrenier, Inc., recently received the following letter from L. H. Campbell, Jr., Lieut. General, Chief of Ordnance, once more acknowledging the splendid war job performed by the firm:

"The goal, the achievement of which we have devoted all of our efforts for the past three and a half years, has finally been accomplished and now for the first time I am able to contact you directly.

In order for you to produce B.A.R. Firing Pins and Time Train Rings you had to go through major conversion, not only in the factory itself, but also in every phase of your organization. Your company and the many other small concerns who undertook major conversion in the face of all obstacles in the interest of helping the war effort make up a large percentage of the industrial half of the Industry-Ordnance Team. Your outstanding performance, particularly on the B.A.R. Firing Pins, has earned you widespread recognition.

I extend to you the deep appreciation of the Ordnance Department and also my personal thanks.

It is to be hoped that your problems of reconversion will be easily surmounted and that you enjoy rapid progress in the Post War era."

"Bip" Glassgold, Arthur H. DuGrenier, Inc. vice-president and general manager, advises the firm is reconverting its facilities rapidly and that the "Challenger" cigarette merchandiser and "Candyman", 5c candy machine, are already in production with the expectation of making deliveries in the not too distant future.

"JUKE" BOX FOR YOUNGSTERS IN BOSTON

BOSTON, MASS. — An experiment by the city fathers in this city, designed to lure the young people from the traditional Hallowe'en pattern of destruction, proved out very successful.

Stephen H. Mahoney, superintendent of the city's park and recreation department purchased five "juke" boxes, placed them in various playgrounds and school gymnasiums, and invited the young people to attend. According to accounts some 10,000 youngsters attended the various affairs, thus eliminating the yearly headache of the Police Department who have to contend with the usual Hallowe'en diversions as ringing doorbells, stealing fences, pulling false alarms, etc.

The experiment proved so successful, the city is now putting on additional music machines which will provide music at weekly dances for the youngsters.

AIREON ENGINEERS TO RMA COMMITTEES

KANSAS CITY, KANS. — Jack Kaufman, vice-president of the Aireon Mfg. Corp. and in charge of the corporation's San Francisco division, has been advised of his appointment to the important Transmitter Tube Commitee of the Radio Manufacturers Assn. THRU THE COIN CHUTE

LOS ANGELES

Over 40 ops met at the Embassy Hotel to discuss setting up a phono ops association. Sam Ricklin of California Music Co. got up on the floor and read the entire analysis as well as the H.R. 3190 bill now in the House Patents Committee which appeared in the July 24 issue of The Cash Box. The meeting was considered very successful in view of the fact that the invitations were twisted, and that many music ops didn't get the notification on time. These music ops now look forward to Nov. 16 when "Curley" Robinson of OALAC is going to call them together at a dinner given on that date.

Among the many new beautiful quarters being prepared to house the incoming crop of new machines are the offices of W. E. (Bill) Simmons (who has moved his 12 year location on the 14th floor of the Bekins Storage Co. Building, 1025 North Highland, down to the 10th floor. With nearly double the floor space, decoration done in beautiful two-tone pastel shades, Simmons now has a display room, lined with acoustical material, large encugh to show the new Aireon models; four offices and a large warehouse room. A box car spur line runs right up to the delivery entrance of the building. Clayton Ballard, former district manager for Packard Manufacturing So., is new distribution manager for Simmons.

They challenge anyone who thinks they can sink as many subs as they can. These two people—the Laymons—have won their way into the hearts of the multitude of coinmen thruout this territory. C. M. I. BLUE BOOK

The "Coin Machine Industry Blue Book" for new and used coin operated equipment is issued every week. It is a review and digest of all selling prices based upon the market quotations for the week. Copyrighted 1945 by The Cash Box, 381 Fourth Avenue, New York 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The C.M.I. Blue Book can only feature the market prices as they are quoted. The C.M.I. Blue Book acts exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The C.M.I. Blue Book, rather than show no price, retains the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The C.M.I. Blue Book reports each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The C.M.I. Blue Book is to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.

2. MEANS PRICE WENT DOWN.

3. MEANS MACHINE JUST ADDED TO LIST.

4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK

5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.

6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS

7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS

XX — MEANS NO PRICES QUOTED FOR MANY WEEKS—PRICE SHOWN IS LAST KNOWN QUOTATION.

IMPORTANT

Machines underlined mean these were most active in trading the past week.

SCOOP!
NEW U-NEED-A "MONARCH"
DESIGNED BY NORMAN BEL GEDDES
UNION CITY, N. J., Nov. 10—Jim Evans, Chief Engineer of U-Need-A Vendors, Inc., announces today that the design of the cabinet for the new U - Need - A "Monarch," currently on the production line, is getting its finishing touches from Norman Bel Geddes, leading contemporary industrial designer.
"Everyone is acquainted with the activities of Mr. Geddes—with the fact that he sets the pace in modern industrial design," states Evans. "We were fortunate in obtaining his services; and the style he has developed for the new U-Need-A 'Monarch' is the most OUTSTANDING ever presented to the cigarette vending machine industry."
The new U-Need-A plant in Garwood, N. J., is running on a double-time schedule to assure the operators fast delivery of U-Need-A merchandisers. The engineering department has also simplified the U - Need - A mechanism to give the operator a fool-proof, compact, easily-serviced machine. In addition, they have increased the capacity of the 8-column model to 480 packs and the 10-column to 600 packs, without increasing the size of the machine—a most important engineering feat that will reduce servicing costs drastically.

ORCHIDS FOR CASH BOX!!

Thank you Bill Gersh, Helen Palmer, Joe Orleck and the rest of you boys and girls on the staff of the Cash Box for the wonderful cooperation you've given us from the very day we started to advertise in your productive Coin Machine Weekly--the CASH BOX. We are particulary thankful to you for the tremendous response to our series of ads in connection with the DOWNEY-JOHNSON Portable Coin Counter. Your publication is doing a wonderful job from every angle. Not only has it brought us orders from the country over but it has stimulated interest among Distributors everywhere. We realize that our Coin Counter is filling a definite need in the coin machine field but CASH BOX is definitely contributing greatly in the success of its distribution. And so...orchids to the CASH BOX for a job well done!

With best wishes,

Charles (Jimmy) Johnson
